HANU-UNICAL online WORKSHOP
Erasmus+ KA107 Program
18 July 2023

Erasmus+ KA107 Programme

- Three programmes financed by Erasmus+ funds: 2018-1-IT02-KA107-047862, 2019-1-IT02-KA107-062018, 2020-1-IT02-KA107-078716;
- Two programs of dual degree activated (Economics, Finance and Insurance)
- Incoming and outgoing student mobility realised;
- Incoming and outgoing academic staff mobility implemented;
- Joint research project developed;
- Establishment of long-run relationship is based on the dual degree programs.

Studing and teaching at UNICAL – Department of Economics, Statistics and Finance

- 13 incoming students from Hanoi University have taken part of Erasmus+ KA107 programmes;
- 6 Vietnamese students obtained a dual degree in Economics (Bachelor level) in 2021;
- One student obtained the PhD in Economics and Business Sciences
- 5 Vietnamese students obtained a dual degree in Finance and Insurance (Master level) in 2021 and 2022;
- Programme progress and Pandemic;
- Two HANU lecturers took part of the Programme providing courses at DESF in 2022 and 2023

Studying, teaching and making research at HANU

- PhD student research visit at HANU in 2023;
- Academic staff mobility for teaching in 2023;
- Research visit within the project “Academic and employment gains of Erasmus+ KA107 programme: collaboration between Italian and Vietnamese universities” in 2023.

DESf - plans for the future

- IIA signed with other partners in Vietnam:
 - Thai Nguyen University of Economics & Business Administration (TUEBA);
 - Truong Dai Hoc Ton Duc Thang University (TDTU)
- Development of cooperation in Asian Region:
 - Agreement in progress with Chiang Mai University (Thailand)

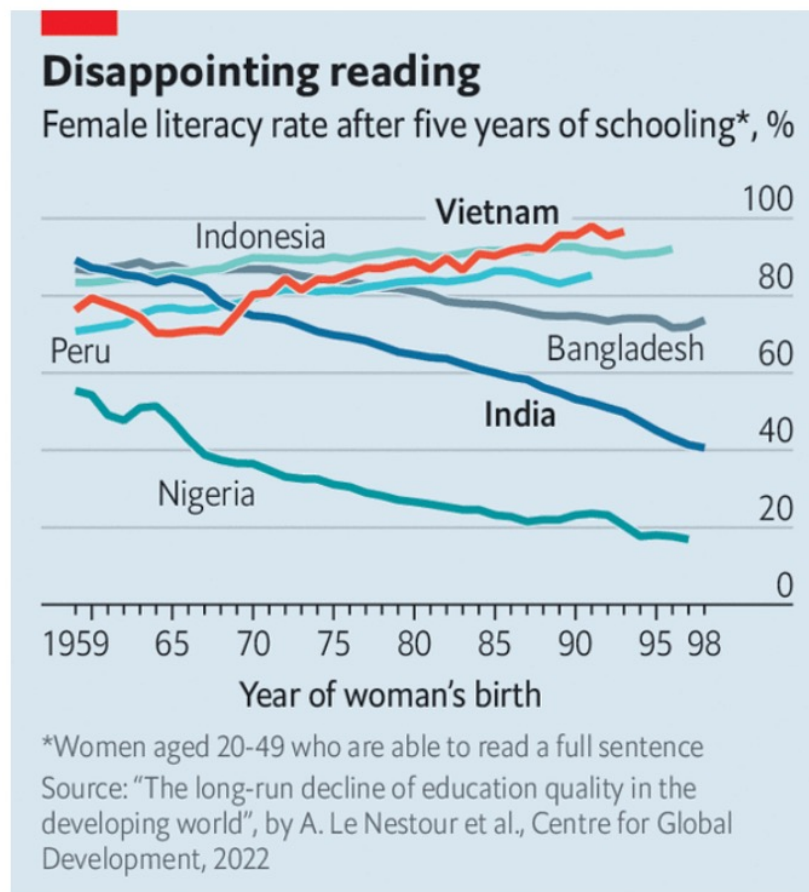

「The road ahead

- Why it is important to continue collaboration with Vietnam universities (economic and social conditions):
 - According to the Financial Times (9 July, 2023), Vietnam was the fastest growing economy in Asia last year (+8%) and one of the few globally to achieve two consecutive years of growth since the Covid-19 pandemic. Foreign direct investment (FDI) rose in 2022 to the highest in a decade (Dell, Google, Microsoft and Apple);
 - According to The Economist (1st July, 2023), Vietnamese schools have significantly improved over time. In fact, Vietnamese students outperform not only their counterparts in Malaysia and Thailand but also those in Britain and Canada.

Why are Vietnam's schools so good?
