Ubicazione Aule/ Lecture hall locations

Le aule dell'ateneo si estendono su un ponte a due livelli: il ponte carrabile al livello superiore e il ponte pedonale al livello inferiore. Sono ubicate all'interno di strutture chiamate "cubi".

The university's lecture halls develop along a two-level bridge: the driveway bridge on the upper level and the pedestrian bridge on the lower level. They are located in square buildings called "cubes".
